

Pick consistent color scheme and other aesthetics for theme #16

Looked at several websites to help identify color schemes that could be used for our application

1. [PickMonkey](#)
 - a. Allows you to import images
 - i. You can then extract color from the images and modify them
 - ii. It gives you color results to help match colors better
 - iii. Allow you to insert shapes and text
2. [ClipStudio](#)
 - a. This website title says it all “Guide to Creating color scheme”
 - b. Provided a very in depth explanation of how to use colors
